CERTIFICAT D'APPROBATION

SCHEDULE - ANNEXE

1. The GULLFIBER 6377 mineral wool insulation having a nominal density of 80kg/m³ is to be the same composition as that tested by the Danish Institute of Fire Technology, Copenhagen, Denmark and described in their test report File # F 8675a dated May 10, 1993.
2. It is the responsibility of the manufacturer to ensure that the product or the container in which it is packed is identified with respect to its trade name and assigned fire rating.
3. The GULLFIBER 6377 mineral wool insulation is to prove satisfactory in service.
4. This certificate will remain valid as long as the product described herein has not been modified from the specimen tested. The manufacturer must submit modified equipment for consideration by the Board.
5. This certificate may be suspended or cancelled if the manufacturer deviates from any of the conditions described herein without the prior consent of the Board of Steamship Inspection.
6. This approval is granted on the understanding that the Board of Steamship Inspection reserves the right to require check tests to be carried out on the GULLFIBER 6377 mineral wool insulation at any time and that GULLFIBER AB will accept full responsibility for informing shipowners, naval architects, shipbuilders and their sub-contractors of the proper methods of installing the insulation and the conditions of this approval.
